Source of Funds: Federal

(Motion continues on page 16)
Purpose: The purpose of the Striving Readers Comprehensive Literacy Program grant is to increase literacy achievement for all students, birth-grade 12. Funds will be used to create sustainable systems that support implementation of CCSS and focus on:

1. School Leader and Teacher Learning Targets,
2. Assessment and Curriculum,
3. School and Teacher Collaboration,
4. Compass Observation and Feedback,
5. Pathways to College and Career, and
6. Aligning Resources.

Basis of Allocation: This is a supplement to the initial allocation of $250,000 awarded to each LEA in August. Allocations are based on the number of students and a base allocation to implement program components. The student allocation is $150/pupil for Cohort 1 and $200/pupil for Cohort 2. The base allocation is $480,000 for Cohort 1 districts; $575,800 for Cohort 2 districts; and $528,000 for the districts in both Cohort 1 and Cohort 2.

5.2.15 On motion of Mr. Guillot, seconded by Ms. Boffy, the Board approved the following allocation:

Allocation: Jump Starting Jump Start Grants
Amount: $645,000
Funding Period: 10/15/2014 - 06/30/2015
Source of Funds: IAT - 8(g)

Purpose: The Jump Starting Jump Start Grants provide student access statewide to career counseling services that enable an engaged adult to interact with high school students to help determine types of traditional or non-traditional college and career training pathways that might work best for the students, and/or workplace experiences where schools and industry can work together to maximize the number of authentic workplace experiences, ranging from industry speakers to workplace visits to apprenticeships and internships, available to Louisiana students.

(Motion continues on page 17)
Basis of Allocation: Allocations were based on: (1) quality of planned expenditures; (2) level of multi-district and charter school collaboration; (3) documented industry support, including the requirement that a minimum of four industry, economic development, and/or workforce development stakeholders participate in the development of the grant application; (4) documented school principal support; and (5) potential sustainability, including but not limited to: (a) commitment of matching funding; (b) involvement of business, economic development, and workforce development stakeholders; and (c) school principal commitment.

School and District Support - Competitive

5.2.16

On motion of Mr. Guillot, seconded by Ms. Boffy, the Board approved the following allocation:

Allocation: High Cost Services Grant
Amount: $4,000,000
Funding Period: 09/01/2014 - 06/30/2015
Source of Funds: State
Amount: $3,999,998
Funding Period: 09/01/2014 - 09/30/2015
Source of Funds: Federal

Purpose: High Cost Services Grant refers to IDEA State Set Aside funds and MFP funds made available to provide additional supports and services to LEAs serving students with high needs. The provision for states to implement High Cost grants was introduced in response to concerns that costs for services for children with the most significant disabilities negatively impact the resources of districts and states making it extremely difficult to provide individualized supports and services necessary for students to thrive in the education setting. These funds are available only to students who qualify for services under the Individuals with Disabilities Education Act.

Basis of Allocation: SCR 55, the MFP Resolution for FY 2014-2015, outlines the method for calculating and allocating the High Cost Services Grant based on four tiers. The cost for qualifying students must exceed three times the average state per pupil expenditure. Applications will be funded based on the needs of the student, the cost to educate the student, the impact of the costs of services on the budget of the school system or school where the student is enrolled, and the availability of funds.
School and District Innovations - Other

5.2.17 On motion of Mr. Guillot, seconded by Ms. Boffy, the Board approved the following allocation:

Allocation: Teacher Incentive Fund

Source of Funds: Federal

Purpose: The LA Teacher Incentive Fund (TIF) supports efforts to develop and implement performance-based teacher and principal compensation systems in high-need schools. The goals include: increasing the percent of effective educators, building the district capacity to implement and sustain a performance-based compensation system for teachers and principals, and increasing student achievement in the six partnering LEAs. These goals will be achieved through the implementation of TAP™: The System for Teacher and Student Advancement in Ascension, Desoto, Pointe Coupee, St. Mary, Tangipahoa, and West Baton Rouge Parishes.

Basis of Allocation: Funds are distributed to participating LEAs to be used as follows: salary for district/school personnel (i.e., master teachers); salary addendums for additional leadership roles and responsibilities of master/mentor teachers; differentiated effectiveness incentive pay stipends for career teachers, master/mentor teachers, assistant principals, and principals; hard-to-staff recruitment incentives; and the TAP online training portal.

(Motion continues on page 19)
1. encouraging proven school operators to provide new, high-quality educational options for students in low-performing schools; and

**School and District Support - Other**

5.2.19 On motion of Mr. Guillot, seconded by Ms. Boffy, the Board approved the following allocation:

Allocation: JAG AIM High! Middle School Pilot Project
Amount: $0.00
Funding Period: 07/01/2014 - 06/30/2015
Source of Funds: Federal

Purpose: The JAG AIM High! Middle School Program will follow the same model as the current Jobs for America’s Graduates - Louisiana (JAG-LA) program, which is a dropout prevention/recovery and workforce preparation program for at-risk youth. The program's purpose is to keep at-risk students in school through graduation to obtain a high school diploma or a high school equivalency diploma and, during that time, improve the students' rates of academic success and employment.

The program targets students with disabilities who are also at risk of dropping out. JAG AIM High! Middle School Program assists students in transitioning into high school. The primary objectives are for students to stay in school through graduation and pursue a postsecondary education.

Basis of Allocation: This allocation is a distribution of funds for one site for the FY 2014-2015 JAG AIM High! Middle School Programs for the period of July 1, 2014, to June 30, 2015.

5.2.20 On motion of Mr. Guillot, seconded by Ms. Boffy, the Board approved the following allocation:

Allocation: State Level Funding
Amount: $1,500,000.00
Funding Period: 10/15/2014 - 09/30/2015
Source of Funds: Federal
(Motion continues on page 20)
Purpose: The LDE administers programs that provide direct services to disabled and at-risk students in state-operated programs. These programs are administered through the Special School District and Louisiana Schools for the Deaf and the Visually Impaired. Services are provided to students in a combination of residential and day programs. The global basis of this request may include activities which support the following initiatives: assisting in providing direct services to students in state-operated programs by complying with state and federal mandates; ensuring access to services and community integration; addressing the needs of personnel shortages; expanding technology through improving and supporting the use of classroom technology; supporting the use of assistive technology and universal design for learning to maximize access to the general education curriculum; providing a continuum of services and oversight with regard to the transition of students to postsecondary activities; and supporting the provision of alternative programs for students removed for disciplinary actions.

Basis of Allocation: The basis of this allocation is to support students with disabilities through targeted grant activities, authorized pursuant to 34 CFR 300.370(c) (use of SEA allocations). The BESE Special Schools serve a disproportionately high number of high-need students with disabilities. This student population requires more intense academic supports and services. Therefore, the Division of NCLB and IDEA Support has identified the population of students served by these special schools as a priority to support improved educational services in these facilities.

5.2.21 On motion of Mr. Guillot, seconded by Ms. Boffy, the Board approved the following allocation:

Allocation: Developing Skills Checklist Assessment Kits
Amount: $3,000.00

Source of Funds: IAT

Purpose: The funds will be used to purchase the Developing Skills Checklist, the kindergarten screening assessment that is required by both BESE policy and statute.
