**Report by the State Superintendent of Education**

State Superintendent of Education White stated that Science Standards and Physical Education Standards are in the development process and will come to the Board for consideration in March or later in Spring 2017.

The Minimum Foundation Program (MFP) Task Force is meeting following the Board meeting today to determine recommendations for the Minimum Foundation Program for the upcoming school year.

The Governor will release his executive budget in February 2017, which will certainly include a consideration of the MFP formula.

The Board will adopt a formula at the March 2017 meeting. The Board does not have to accept the recommendations of the MFP task force, nor does it have to conform to the Governor’s budget. It would be ideal if those three entities are in sync prior to making a presentation to the Legislature.

The Accountability Commission, the Superintendents' Advisory Council, the Special Education Advisory Panel, and other advisory councils have been meeting to consider policy related to the Every Student Succeeds Act (ESSA). Louisiana anticipates submitting its plan to the federal government in Spring 2017 so that the plan can be approved prior to the first year of implementation of the law in 2017-2018.

Pupil/Teacher and Pupil Appraisal Ratios for Public Education, for three talented visual arts teachers. This approval is contingent upon the following:

- St. Martin Parish School System must monitor programming impacted by this request to assure that policies and procedures are consistently followed.
- For future waivers to be approved, the talented performance growth of these students must not be negatively impacted, and ratios should not increase from the current levels requested. This is the first year the St. Martin Parish School System has requested this waiver.

6.1.2 On motion of Dr. Boffy, seconded by Dr. Jones, the Board denied the request submitted by Milestone Academy to waive policy outlined in Bulletin 111, The Louisiana School, District, and State Accountability System: §3101. Specifically, that a graduation rate and strength of diploma index be considered in the overall school score, even though the school graduation cohort membership does not meet the minimum requirement of 10 students. The approval is contingent upon the following:

- This waiver of policy will remain in effect for five years. During that period, the waiver shall not be lifted. If this waiver request is approved, the public report card will be updated to reflect the new score. All other reports that were released will maintain the original score.
