§703. Behavioral Health Services for Students

A. A public school governing authority shall not prohibit a behavioral health service provider from providing medically necessary behavioral health services authorized by an independent third-party payor, including but not limited to Medicaid and commercial insurance, to a student at school during school hours if the student's parent or legal guardian requests such services from the provider.

B. Each public school governing authority shall adopt and make available to the public a policy to implement the provisions of this Section. The policy shall not create onerous requirements for behavioral health providers resulting in a delay or barrier to the provision of medically necessary services. The policy, at a minimum, shall include:

1. A behavioral health provider who provides services in accordance with this Section shall maintain general liability insurance coverage in an amount not less than one million dollars per occurrence and one million dollars per aggregate and provide a certificate of insurance naming the public school as the certificate holder.

2. No person who has been convicted of or pled nolo contendere to a crime listed in R.S. 15:587.1(C) shall be permitted to provide behavioral health services to a student at school during school hours. Prior to providing services in accordance with this Section, a behavioral health provider shall complete a criminal background check (CBC) conducted by the Louisiana State Police and shall pay all related costs. However, applied behavior analysis providers who are licensed, certified, or registered by the Louisiana Behavior Analyst Board, who provide documentation of having passed a CBC conducted by the Louisiana State Police and FBI, and who are in good standing with the board

shall not be required by the public school governing authority to complete an additional CBC in order to begin providing behavioral health services at a school.

3. Behavioral health services shall be permitted during school hours if the student's parent or legal guardian presents a behavioral health evaluation performed by an evaluator as well as an assessment and authorized treatment plan performed by a behavioral health provider chosen by the parent or legal guardian, and the evaluation indicates that the services are necessary during school hours to assist the student with behavioral health impairments associated with a medical diagnosis that the evaluator determines are interfering with a student's ability to thrive in the educational setting.

4. A behavioral health evaluation or assessment presented by the parent or legal guardian of a student shall not be construed as an independent educational evaluation for the purposes of determining if a student meets the criteria established for eligibility for special education and related services.

5. A public school governing authority shall not prohibit a behavioral health evaluation, assessment, or authorized treatment plan from being performed on school property in order to establish medical necessity or deliver medically necessary services. Behavioral health services may be provided during any part of the school day, including any and all instructional time in English, reading, mathematics, and science. The school administrator and service provider shall work collaboratively to create a consistent schedule that meets the medical needs of the student and complies with the provider's ethical code of conduct. In developing the student's plan, consideration shall include impacts on the school's operations and a student's testing schedule. If the parties cannot agree, then the parties shall engage in a dispute resolution process set forth by LDOE in accordance with §705 of this Chapter.

6. The public school governing authority shall not enter into a contract or an exclusive agreement with a behavioral health provider that prohibits the parent or legal guardian from choosing the behavioral health provider for the student. The provisions of this Subparagraph shall not impair any extant contract on the effective date of this Section, or the renewal thereof.

7. The cost of all behavioral health services provided to a student pursuant to this Section shall be the sole responsibility of the parent or legal guardian, individually or through an applicable health insurance policy, Medicaid, or other third-party payor, other than the public school governing authority, that has made funds available for the payment for the services provided.

8. While on a school campus, a behavioral service provider shall comply with, and abide by, the terms of any IEP, IAP, Section 504 Plan, Behavior Management Plan, or Individual Health Plan applicable to a student who is a patient of the provider. The services furnished by a provider shall be incorporated into a written treatment plan applicable to the student.

9. The parent or legal guardian of a student receiving services from a behavioral service provider shall be required to execute a "consent to release information form" between the provider and the public school governing authority.

10. The public school governing authority shall establish reporting requirements for a behavioral health provider related to the student's progress and student and school safety concerns as related to the student's educational program.

11. The public school governing authority may establish sanctions, including termination of a provider's authorization to provide services on any school campus, against a behavioral health provider for failure to comply with the policies established by the public school governing authority.

C. The failure of a public school governing authority to adopt a policy shall not be cause to prohibit the provision of behavioral health services to a student in accordance with this Section.

D. Any behavioral health evaluation, assessment, or treatment plan administered by a public school governing authority shall not supersede the behavioral health evaluation, assessment, or treatment plan provided by an independent behavioral health provider of a student's parent's choosing.

E. Any applied behavior analysis services provided by the public school governing authority in accordance with this Section shall be delivered either by behavioral health providers licensed, certified, or registered by the Louisiana Behavior Analysis Board in accordance with R.S. 37:3701 *et seq.* or behavioral health providers providing services in accordance with R.S. 37:3715.

F. Nothing in this Chapter shall be construed to supersede any of the following:

1. the authority of the student's IEP team or Section 504 committee to determine appropriate services for a student in accordance with applicable federal and state law;
2. the provisions of the Behavioral Health Service Provider Licensing Law or any regulation promulgated by the Louisiana Department of Health pursuant to such law; or
3. provisions of the Behavior Analyst Practice Act.

AUTHORITY NOTE: Promulgated in accordance with R.S. 17:1944 and R.S. 17:173.

HISTORICAL NOTE: Promulgated by the Board of Elementary and Secondary Education, LR 51:

5. a proposed resolution of the problem to the extent known and available to the party at the time the complaint is filed.

C. The complaint shall allege a violation that occurred not more than one year prior to the date that the complaint is received by LDOE.

D. Upon receipt of a valid complaint, the LDOE shall review the allegations as submitted and shall provide written notice to the public school governing authority serving the student, including the following:

1. a request for specific information needed by LDOE to conduct its independent investigation of the complaint;
2. reasonable timelines established for providing such information to the LDOE; and
3. a statement of the public school governing authority's opportunity to respond to the complaint, including the opportunity to provide a proposal to resolve the complaint, at their discretion.

E. The LDOE shall provide written notice to the complainant including a statement of the opportunity to submit additional information, either orally or in writing, about the allegations in the complaint.

F. The LDOE shall review all relevant information and make an independent determination as to whether the public school governing authority is in violation of R.S. 17:173 or this Chapter and, if such violation is determined, the actions by which the public school governing authority will be required to correct the violation.

G. Final Decision. Within 60 days of the LDOE receipt of a complaint, the LDOE shall issue a written decision to the complainant and the public school governing authority that addresses each remaining allegation of the complaint and contains:

1. findings of fact and conclusions; and
2. the reason for the LDOE final decision.

H. Time Extension. The LDOE shall permit an extension of the 60-day time limit only if:

1. Exceptional circumstances exist with respect to a particular complaint; or

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES

RULE TITLE: Bulletin 135—Health and Safety Medication and Student Health

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

There are possible implementation costs to state or local governmental units due to the proposed rule change. The proposed rule change updates training requirements for high school coaches and mandates that such employees maintain certification in cardiopulmonary resuscitation (CPR), first aid, and automated external defibrillator (AED) use; however, these requirements are subject to appropriation or donation and will not result in an automatic increase in local fund expenditures. The proposed rule change is in response to acts of the 2024 RS. The change expands licensed practitioners recognized for medication orders, prohibits the requirement of a COVID vaccine in educational settings, prohibits discrimination based on vaccine status, incorporates emergency medication standards, and establishes expectations for the provision of behavioral health services for students. Further revisions require distribution of cardiac health information to student athletes and their parents and adds training and certification requirements for high school coaches, subject to appropriation or donation.

Depending on whether a system selects to train regarding naloxone or another opioid antagonist, free training materials are available online. The required cardiac health information has already been created and disseminated to schools using existing Louisiana Department of Education (LDOE) resources and in collaboration with the Louisiana Department of Health.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

There is no anticipated effect on the revenue collections of state or local governmental units as a result of the proposed rule change, unless a local education system receives a donation to cover the cost of training coaching staff in CPR, first aid, and AED use. The extent to which donations will be offered and accepted is indeterminable.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS, SMALL BUSINESSES, OR NONGOVERNMENTAL GROUPS (Summary)

There are potential anticipated costs or benefits to directly affected persons, small business, or nongovernmental groups as a result of the proposed rule change to the extent that credentialing entities that provide the training and certification may see increased scheduling of services and additional receipt of the associated fees. Such an increase would be dependent upon receipt by the local system of appropriated or donated funds to cover training costs.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT
(Summary)

There is no anticipated effect on competition and employment as a result of the proposed rule change.
